

# INTRODUCING...

## The Missouri Ethics Commission's newest resource for Political Subdivisions

We have created a calendar resource for political subdivisions to inform them of their yearly duties and responsibilities with the Missouri Ethics Commission (MEC) as well as to provide a general idea on the timing of required actions. This new resource is titled [YEAR AT A GLANCE](#).

Please review this new resource and determine which filings/deadlines/actions apply to your subdivision. If you have any questions regarding your responsibilities, please contact our office. *Remember, subdivisions with an annual operating budget (AOB) \$1 million or under are only required to verify their AOB each year (see July) and provide election packet information to candidates for each election.*

On the inside cover you will find our contact information and a list of other resources available on our website. Be sure to check our website frequently for updates, reminders, and the latest news and information from MEC.

**Reminder:** Always keep your contact information current with MEC. This includes name of contact person, mailing address, phone number, fax number and email address.
